COVID-19 India Map

I have made a static and an interactive map of India to visualize COVID-19 confirmed cases in India state wise as of 1st October 2021.

Quick Description

- Map made with package `tmap`
- `tmap` is very handy for making thematic maps in `R`

File Description

- **India_State_Shapefile** :- Contains the shape file of India.
- **Code rmarkdown** :- Contains the Rmd file of R Code
- **Code-rmarkdown** :- Contains the HTML file of Maps
- **states** :- Contains the COVID-19 India data
- **Images** :- Contains screenshot of maps
